

# HAVING OUR SAY COALITION

## HISTORY:

The Having Our Say (HOS) coalition was founded in 2007. Together we raise the voices of communities of color across California to advocate for state and local policies that advance health equity and racial justice.

## MISSION:

The Having Our Say coalition envisions a world in which all communities have an equal opportunity to live with optimal physical, mental, oral, and overall health and well-being, and to thrive.

## GOALS:

- Establishing health care coverage for all Californians
- Increasing access to high quality, affordable care that is culturally and linguistically appropriate for all Californians
- Forming comprehensive care, including mental, oral, and preventive care
- Ensuring communities have the social, economic, and environmental conditions to thrive
