About California Pan-Ethnic Health Network (CPEHN)

The California Pan-Ethnic Health Network's (CPEHN) **mission** is to promote health equity by advocating for public policies and sufficient resources to address the health needs of communities of color.

CPEHN is excited to announce our role as a backbone facilitator organization for the California Oral Health Network. Achieving optimal oral health is necessary to improve one's overall health and well-being.

The vision for the Network is to build stronger momentum for this change. The Network seeks to include engaged, diverse stakeholders from multiple sectors and populations committed to advancing oral health equity for all. Together, we are working to improve overall health for Californians addressing oral health issues, especially for those who are historically underserved. The Network will maximize our collective efforts to advance systemic social change toward oral health equity.

2018 California Network Regional Convenings

When	Location	Venue
February 15, 2018	Fresno	Downtown Business Hub
February 22, 2018	Oakland	The California Endowment
March 2, 2018	Los Angeles	California Community Foundation
March 20, 2018	Sacramento	The California Endowment

Convening Goals

- Share information with partners and participants about the Prop. 56 local oral health assessments
- Connect stakeholders to the local public health departments to understand the local process
- Introduce the Oral Health Network and facilitate discussion/information gathering session.
- Provide opportunities for local networking
