

INTERPRETER TRAINING

Please join us in the upcoming 40-hour health care Interpreter training. This training is available to individuals and employers. Discounts may apply to employers who send 5 or more staff to the training.

Would you like to learn the skills needed to be a CULTURALLY COMPETENT HEALTH CARE INTERPRETER?

Do you know the difference between a Trained Bilingual Interpreter and an untrained Bilingual Interpreter?

ABOUT THE TRAINING

Special Service for Groups / PALS for Health, assesses for language proficiency and trains bilingual/bicultural health care providers on the skills of interpreting using the California Statewide Connecting Worlds Training● curriculum. In addition to the Interpreting curriculum, a variety of modules that cover specific medical issues and Cultural Competency in the health care setting are presented.

By joining us for this training, you will ensure that you or your agency are offering accurate and effective interpretation to its limited English proficient patients in a culturally sensitive manner.

We encourage you to increase your language skills or those of your bilingual/bicultural staff members.

SIGN ME UP

Register for Proficiency Testing: (Training participants must pass PALS for Health's 2.5-hour proficiency test; as a prerequisite to the training.)

Attaining a score of 70% or higher, secures you a spot for the: 40 Hour Health care Interpreter Training

Successfully complete all 5 days of the training and receive a certificate of completion.
